Quality and safety policy

The elements of quality and safety are among the most important elements that we place among our priorities that we cannot neglect. We have also, over many years of providing contracting, maintenance and operation work, been working to improve the quality in all our work with an excellent quality and safety system that keeps pace with ongoing challenges and is in line with...

With different customers' requirements.

The most important measures of our quality policy are permanent inspection and periodic monitoring of various works, monitoring how performance indicators are progressing for all employees of the company, measuring the extent of our customers' satisfaction with the services we provide to them, and taking all safety and security precautions.

vision

Our vision is in line with the vision of the Kingdom of Arabia Saudi Arabia 2030 to provide the highest standards of quality For our services, providing the best services to our customers, and expanding in the field Activities and general contracting for all projects and services Support for major projects.

General Contracting

The company has a full staff of engineers, technical workers, heavy and light equipment, and machinery to complete major projects in factories and major construction, including preparing factory floors, building yards, commercial markets, and oil and gas factories. Our toxic public or not

who are we?
